TCU: actions geared to compliance with the PNE (National Education Plan) and SDG 4

One of the mandates of the Federal Court of Accounts is to oversee implementation of the national education Plan (PNE) across Brazil. The PNE is a government policy that sets guidelines, goals and strategies for the educational system for a period of 10 years, beginning in 2014. The PNE is directly linked to SDG 04 (Quality Education) and aims to ensure the right to quality basic education, enhance educational opportunities, and reduce inequalities and value education professionals, among other objectives.

PNE = 20 goals
